

Zebra guardian cabinets

How your operations store enterprise mobile devices has an often unrecognized impact on operational efficiencies. If your device storage solution lacks adequate space, security features or a purposeful design, your operations risk:

- Damages to and losses of devices
- Obstructions to workflows
- Reductions in productivity
- Challenges to overall profits
- Availability and readiness of devices

Optimize device storage, accessibility and management

Zebra Guardian Cabinets, Racks, Cradle Locks, Customized Carts and Trolleys help ensure assets and workflows function in tandem at high performance and optimal security to accelerate business in warehouse, transportation and logistics, retail and healthcare operations.

To maximize the use and productivity of your devices—such as mobile computers, mobile printers and tablets—Zebra Guardian Cabinets offer an adaptable portfolio of end-to-end device storage solutions, software automation and security applications, as well as ongoing support.

Consolidate and connect your devices to maximize performance

With Zebra Guardian Cabinets, you can maximize the long-term performance and lifecycle of each device through effective management, making every device ready for optimum use during every shift without interrupting operations.

Helping to accelerate business in warehouse, transportation and logistics, retail and healthcare operations, Zebra Guardian Cabinets consolidates your Zebra devices and connects them for:

- Battery charging
 - Software updates
 - Health checks
 - Faster access and storage
- And more.

Offers

- Cabinets
- Racks
- Cradle locks
- Customized carts

ROI

- Device loss prevention: security
- Damage reduction: user accountability
- Workforce efficiency: rapid secure access
- Increased productivity: ready for use

Automate workflows with software-driven management

Zebra Guardian Cabinets allows you to accelerate workers' access to devices at the start/end of shifts, avoid manual distribution and documentation of devices, and use software-driven device management to track device location and battery health. Save critical workforce time and operational costs, as well as:

- Automate workflows
- Minimize worker hours
- Reduce human error and allocate devices to users more accurately
- Increase productivity and efficiencies
- Free up your workforce to focus more on your operations

Protect devices with authorized-only security

With secure, authorized-only device storage, Zebra Guardian Cabinets enables controlled issuing of devices and device traceability, so your operations can:

- Reduce device loss
- Create greater worker accountability
- Prevent device abuse and damages
- Minimize repairs and replacements
- Reduce device quantities and cost

Access a wider range of services

Zebra Professional Services offers a range of services end-to-end for Zebra Guardian Cabinets, from initial concepts to smooth deployment, successful adoption and effective operations. Support Services provide the right coverage of your devices beyond wear and tear. And to complete your comprehensive support of the Guardian suite, VisibilityIQ™ offers a single pane-of-glass of device performance.

- Zebra Signature Services provides learning services, program management and deployment services to ensure your solution is properly tailored to your needs
- Zebra OneCare™ offers ongoing technical support to give you the assurance of Zebra's global experience and support

Ideal applications

Healthcare

- Hospital storagerooms
- Nurse stations
- Laboratory/pharmacy areas
- Device fleet management

Warehouse

- Storage and stocking area
- Reverse logistics
- Picking and packing
- Inventory management

Retail

- E-commerce
- Pickup/Order fulfillment
- Distribution centers
- Back of store

Transportation and logistics

- Postal and courier
- Device fleet management

* Device Guardian Access Management is a separate software that needs to be purchased with the cabinets.

1. Depends on device and cradle configuration.

2. HPL is a composite material made from multiple layers bonded together.

3. "Secured to wall" means the weight is on the floor but it is recommended to attach the cabinet to the wall to ensure stability and avoid risk of tipping over.

4. Indicates the amount of additional shelves that can be purchased as add-on to increase capacity.

Why Zebra

We recognize that for businesses to compete they must become as smart and connected as the world we live in. While other providers focus on their own products, we focus on your business priorities. Zebra Guardian Cabinets is just one example of how we do this by creating solutions that lead to rapid ROI from the faster adoption of new edge-data solutions.
